STATEMENT ON A “CONFLICT FREE” SUPPLY CHAIN

Laptech Precision, a manufacturer and designer of quartz crystal resonators for the telecommunications industry, implements a world-wide health, safety and environmental policy which extends to its supply chain and has issued this statement regarding the sourcing of metals and minerals.

- The company is committed to operate in full compliance with governing laws, rules and regulations applicable to the procurement of the refined metals used in our products.
- The company will continue to monitor the on-going development of industry practices related to the tracing and tracking of metals and minerals.
- The company will exercise due diligence on the sources of refined metals used in its products.
- The company has communicated this requirement to the suppliers of its refined metals and request that they adopt similar procedures for materials supplied to Laptech Precision and for their upstream suppliers.
