

Proposition 65 Warning for RFX Limited

Proposition 65 warnings can now be found on many manufacturers' products, including ours.

These warnings are a result of a California State Law passed in 1986—the California Safe Drinking Water and Toxic Enforcement Act of 1986, also commonly known as Proposition 65.

WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov

Proposition 65 aims to ensure the public is informed about the potential exposure to chemicals known to cause cancer, birth defects, or other reproductive harm.

Proposition 65 requires the State of California to publish a list of these chemicals. This list currently contains a great number of chemicals and continues to expand.

The law requires companies to provide a warning on their products if they contain these chemicals. A warning must be given if the listed chemical is present in a product unless it can be demonstrated that the chemical poses "no significant risk." For chemicals that can cause cancer, the 'no significant risk' level is defined as the level, which is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime.

Through the natural manufacturing process our products may have traces of various chemicals that are on the list.

What does a Proposition 65 warning mean?

The warning does not mean our products will inevitably cause cancer or reproductive harm. Proposition 65 may be best defined as a "Right to Know" law and Proposition 65 warnings are not an indication that a product is violating safety standards or regulations.

Our products are sold internationally and either directly or indirectly sold in California. We have chosen to include this warning to ensure compliance with Proposition 65 law.
